### School Transportation Data

Date of Last Student Tallies: No data available  
% walking:  
% bicycling:  
% within one mile of school:  
% within two miles of school:

### Barriers to Walking and Bicycling

Parent surveys unavailable for identification of barriers to walking and bicycling to school.

### Engineering Recommendations

- Redesign the major intersection near Kawaihau Rd./Mailihuna Rd. - oval roundabout to fit that area.
- Traffic controlling device is being planned to make one major crosswalk in that area instead of having three crosswalks.
- Appropriate striping in the area is needed to make it more conducive to walking and biking with appropriate signage. (Kawaihau/Mailihuna/Hauaala Rds)
